

Q. Create simple objects and array objects using JSON

```
import com.github.cliftonlabs.json_simple.JsonArray;  
import com.github.cliftonlabs.json_simple.JsonObject;
```

```
public class main {  
  
    public static void main(String[] args) {  
        // TODO Auto-generated method stub  
        JsonObject person = new JsonObject();  
        person.put("fname", "Ridhwik");  
        person.put("lname", "Kalgaonkar");  
        System.out.println(person);  
  
        JsonArray food = new JsonArray();  
        food.add("Pizza");  
        food.add("Burger");  
        System.out.println(food);  
  
        person.put("Food", food);  
        System.out.println(person);  
    }  
}
```
